### **The 2004 World Energy Congress September 5-9 2004**

The 2004 World Energy Congress was held in Sydney in September. Professor Minh Tran from the European Fusion Development Agreement attended and presented a paper titled 'ITER, The major step towards fusion energy for the world', see <http://www.worldenergy.org/wec-geis/congress/papers/tranm0904.pdf> for more information. Fusion related work was also presented by Mr. Thomas Hatcher of the Max-Planck-Institut Fur Plasmaphysik and Mr. Valentino Romeri of Rasfin Italy, see <http://www.worldenergy.org/wec-geis/congress/eventdetail.asp?event=48> <http://www.worldenergy.org/wec-geis/congress/papers/tranm0904.pdf> for more information
